GLASS EXPERIENCES

COPPER FOILING

You can purchase a suncatcher to hang in your window to have light shine through, or you can create your own, have the same delights as well as a talking point about how *you* made it.

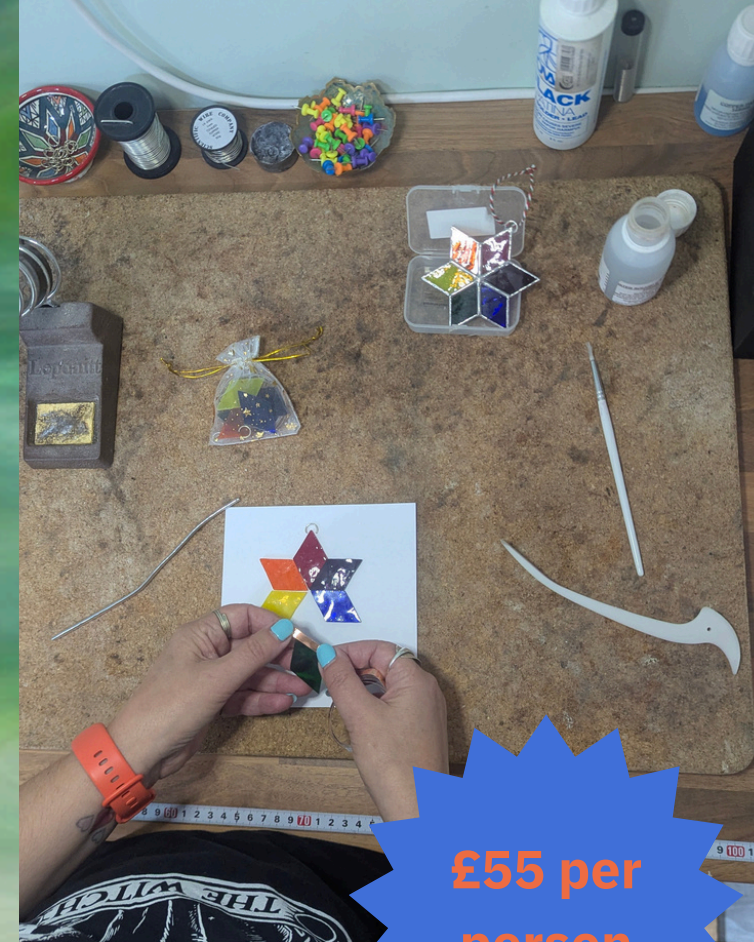

Experiment with different colours, textures, and styles of glass to create unique designs.

What to expect

- Learn how to cut the glass to the pattern you have chosen.
- Learn how to make the glass safe to handle
- Learn how to foil & then solder the glass pieces together.
- Decide how to hang your item, and create the hanging hooks
- Decide on what finish you would like to give your creation.

£55 per person
